

Pharmaceutical Packaging Forum

This educational and networking event focuses exclusively pharmaceutical packaging challenges and solutions and is produced by *Healthcare Packaging* and *Packaging World* magazines. Attendees will learn innovative strategies from their peers – professionals at market leading companies in the U.S. and around the world. The one-day agenda incorporates optimum time for connecting with colleagues and meeting solution providers.

Program content is developed for packaging decision-makers for pharmaceutical and healthcare products, including engineers, plant managers, validation and regulation officials, package designers, security/quality control professionals as well as suppliers to the market.

Speakers from past conferences include professionals from these and other leading companies:

AstraZeneca, McNeil Consumer Healthcare, KornickLindsay, U.S. Dept. of Commerce, Johnson & Johnson, Schering Plough, Merck and Co., Inc., Joint Equipment Transition Team (JETT) and Alcan Global Pharmaceutical Packaging (contract packagers)

Feedback from attendees:

“This was excellent, especially the discussions on India and China”

“Excellent real examples of how manufacturing is improved by changes in control engineering, without references to specific vendors.”

“Very good analysis on URS creation and benchmarking”

“Great, real, candid presentation” “Excellent. Kept to the topic...used many useful illustrations”

“The McNeil & AstraZeneca real-life stories were wonderful!”

“Extremely dynamic speaker! Highly informative!”

“Very informative. I had the chance to meet new people and learn a great deal about topics that affect me directly.”

Partial list of companies attending past PPFs
